## What makes it such a great event to attend?

We love Facades+ events because they are one of the unique events where we as suppliers of building systems facades get the opportunity to speak with Architects who are at the beginning of project design and take off to find out what they are looking for in the market, what trends they are interested in, and what problems they are facing in the industry.

This past Valentines Day we had the pleasure of being a silver sponsor of Facades+ Washington, DC. It turned out to be an amazing event. We met with many attendees who were there to gain inspiration, learn, and find solutions to their projects.

Thank you all those who attended and to the Facades+ team for putting together such a success.
